Head Human Resources and Administration

Systems Developer
P O Box 3940
Harare

Dear Sir/Madam

Re: Application for a Systems Developer Position at ZIMPOST.

I am attaching my CV/resume supporting my application for the above position. I possess a first-class **Bachelors (Hons) Degree in Management Information Systems** from **Midlands State University** and a good company experience in **Systems Development** from Zimbotech IT Solutions.

Some of my Skills and Experience are as follows:

- **Website Systems Development:** I have proficiency in utilizing **HTML, CSS, Java, C#, Python, JavaScript, PHP, and WordPress** in creating responsive and user-friendly websites for various clients and purposes.
- **Mobile App Systems Development:** I'm skilled in utilizing **Android Studio, JAVA, Kotlin, Flutter, and Firebase** tools for developing interactive and functional mobile application systems for different platforms and devices.
- **Database Systems Design:** I'm experienced in the design and implementation of efficient and secure databases using **Microsoft SQL and MySQL**, applying the best practices of database systems design.
- **Scripting Knowledge:** I'm knowledgeable in **Windows, Linux, and Mac OS**. Able to install, write efficient scripts, configure, and maintain systems and servers. Familiar with Active Directory, Office 365, and Azure.

I am a **naturally passionate and curious guy** when it comes to **technology** and this curiosity pushes me to continue learning new things every day, I am a **problem solver** and **I can work well under pressure with minimum supervision**, I can also work well with others for I believe in teamwork. **I'm also a critical thinker and a hard worker who won't give up easily until I have found a solution to the problem.**

Thank you for considering my application, and I look forward to hearing from you.

Yours Faithfully,

Tafadzwa Tanyanyiwa

Systems Developer

PROFESSIONAL SUMMARY

Software is my passion. I love the challenge of taking an abstract idea and turning it into a concrete product that can make a difference in people’s lives. I have good knowledge in following the system development life cycle, from planning and designing to testing and deploying.

SKILLS

- **Programming Languages:** Proficient in HTML, CSS, JavaScript, C#, JAVA & Python.
- **Website Development:** Skilled in Responsive Design, User Experience (UX), Cross-Browser Compatibility.
- **Mobile App Development:** Proficient in Kotlin, Android Studio, iOS Development.
- **Database Management:** Proficient in SQL & MySQL.
- **Network Administration:** Proficient in TCP/IP, LAN/WAN & Firewall Configuration.
- **Security:** Knowledgeable in System Security, Risk Assessment & Incident Response.

EDUCATION

BSc (Hons) in Management Information Systems, Midlands State University with Trust Academy, Harare, **Jan 2018 - Nov 2022.**

- Graduated with a **First-Class Honours** degree.
- Studied courses in **Database Systems, Software Engineering, Data Structures and Algorithms, Systems Analysis, Software Engineering, Artificial Intelligence, and Network Security.**

WORK EXPERIENCE

Outlook Technologies (Pvt) Ltd, Harare | Developer | August 1, 2022 - June 5, 2023

- Collaborated with company clients and users to design and deliver high quality software solutions that align with their requirements and specifications.
- Participated in the design, development, testing, and delivery of cloud applications using **AWS and AZURE Cloud Platform** services and technologies, ensuring high availability, scalability, and reliability of the applications.
- Monitored cloud usage and cost, ensuring that cloud costs were optimized and within budget.
- **Upgraded on-premise systems** by analyzing, debugging, and removing dependency code to keep them up-to-date with latest technologies **increasing the efficiency and functionality of the systems by 30%.**
- **Maintained the code base documentation** to ensure it was accurate, consistent, and up to date with the latest changes and enhancements in the software.

Zimbotech (Pvt) Ltd, Harare | Intern, Software Developer | Jan 1, 2021 - May 10, 2022

- Leveraged **ASP.Net Core, C#, Entity Framework Core, SQL, & JavaScript** to create web applications, meeting 3 project deadlines and exceeding 3 performance targets
- Conducted security assessment of IT systems by reviewing their design, implementation, operation, and maintenance, **identifying over 50 potential vulnerabilities**, risks, and weaknesses, and providing recommendations for mitigation and improvement.
- Improved the functionality and performance of existing systems by updating and modifying the code, fixing over 100 coding errors, enhancing over 20 user interfaces, and increasing the speed by 15% using **JavaScript, MySQL, HTML, and CSS.**

ADDITIONAL SKILLS

- Strong analytical and problem-solving abilities.
- Excellent communication and teamwork skills.
- Proactive mindset, always staying up-to-date with the latest technological advancements.
